InlinePlastics®

Product Catalog

“

Keeping it fresh since 1968.

Welcome to the Inline Family

When describing Inline Plastics, we think of family. It is at the heart of our company and all of our operations. From our extensive product families, to our fifty plus year history of Orkisz ownership, to how we treat our customers and suppliers - it is all about family and that is why many of our relationships have lasted for decades.

In the 1950's, my father and uncle started their venture into mold making and thermoforming in their Bridgeport, Connecticut family home. That was the birth of Inline Plastics, which is now one of the industry's most innovative packaging manufacturers with facilities across the United States and coming to Canada. Throughout all this growth and development, the company has remained under Orkisz family ownership with a third generation, my daughter, Alicia Orkisz Fitze, joining the organization in 2018.

Core Values

Our success is directly tied to our core values of innovation, sustainability, and customer satisfaction that result in environmentally friendly, high quality, cost-effective packaging and packaging automation solutions. Whether working with our R&D center, sales and marketing, or manufacturing, every team at Inline is committed to providing the best customer service and exceptional products. We never settle and are always looking for creative and pioneering solutions for the ever-changing marketplace.

Sustainability

Family means taking care of one another. That extends beyond our customers and employees, to our communities and the world around us. We support proactive and responsible business operations that encourage environmental sustainability, increase awareness and education about recycling, and reduce negative impacts on our environment. Inline products are 100% curbside recyclable and made with the lowest carbon footprint PET material. Our innovation teams are also hard at work incorporating more post-consumer recycled materials into our production processes.

We look forward to working with you!

Let's Get Started

This catalog provides extensive information on our product lines and our teams are ready to answer questions and creatively provide solutions for your individual packaging needs. Visit us at inlineplastics.com for more information, or reach out to our Chief Fun Officer, Lemon, at lemon@inlineplastics.com, to find out more about our products, services, and how to become a part of the Inline family.

Alicia Tom

Our First 50 Years

1968

Inline Plastics is Incorporated

Inline Plastics Corp.

1985

Inline Plastics launches SureLock® technology

1988

Inline Plastics receives first patent for a locking mechanism

1991

The opening of Inline Plastics facility in Poland (later sold)

1999

Tom Orkisz becomes Owner, President and CEO of Inline Plastics

2003

The opening of Inline Plastics facility in Utah

2006

Launch of first Safe-T-Fresh® line, after receiving official patent

2009

The opening of Inline Plastics Georgia Plant

2016

New Safe-T-Fresh® families are launched, feauturing smooth, modern lines

2018

Orkisz Legacy Continues: Third Generation, Alicia Orkisz Fitze, joins the Inline team

2018

Branding and website are refreshed to coincide with the future vision of the company

All containers are manufactured from FDA conforming PET for direct food contact and are 100% recyclable material.

Our commitment to the environment

We support proactive and responsible business practices to protect the world around us

Five Areas of Focus for Environmental Sustainability

1

Solar Power

In 2018, Inline Plastics installed a rooftop system with more than 2600 solar panels covering our roof. Solar Power benefits include: a reduction in air pollution, reduction in carbon dioxide and methane emissions, elimination in greenhouse gas production, and reduction in global warming.

2

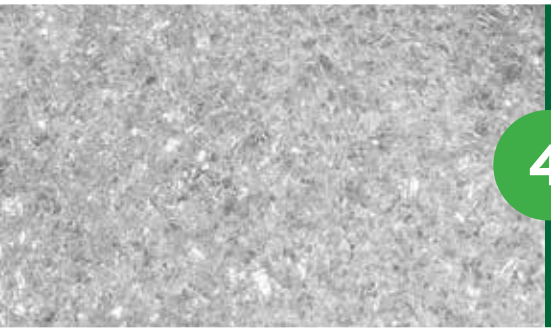
Lowest Carbon Footprint Plastic

Our key ingredient is DPET™, a high performing plastic with the lowest carbon footprint on the market today. DPET™ is manufactured in a 3-step energy saving process vs. the traditional 9-step process to produce standard PET.

3

100% Recyclable Products

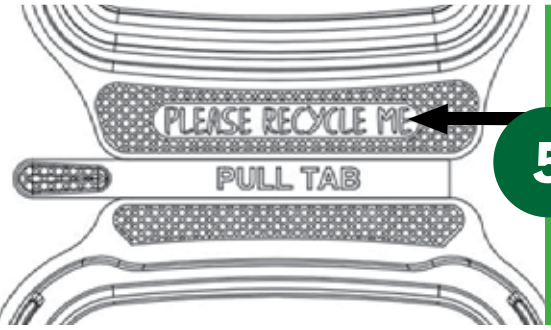
Our products are made with high value plastic. DPET is the most commonly recycled plastic globally. It is also easy and efficient for consumers and municipalities to collect and recycle.



4

rPET - Recycled post industrial DPET

The Inline rPET is post-industrial recycled DPET. When re-ground, these flakes have a 28% LOWER carbon footprint than rPET made from bottles. Together with our partners, we are working on adding more rPET to our production and look forward to increasing that percentage in the near future.



5

Educating Consumers about Recycling

In our research with consumers, many did not understand the meaning of the recycled symbol that is embossed on most if not all PET containers in the market. This is why we are now including 'PLEASE RECYCLE ME' on the top and bottom of our new containers.

Close the deal on higher profits with Inline Packaging Automation Solutions

Inline Plastics is the only thermoformed container manufacturer in the industry providing in-house packaging automation solutions.

Automation Capabilities Include:

We have dedicated over 50 years to packaging innovations. Fully understanding how our customers can benefit from using our automation services quickly became the key input into our development processes.

The Inline Automation team leaves no stone unturned to ensure a reliable and effective automation integration process.

The results translate to a better value proposition for your customers to increase potential new sales. Typically, there is no need for tool change-overs — a simple adjustment of machine settings is all that's necessary.

Machines can be used alone or integrated easily to a packing conveyor or labeler.

Labeling Systems

Our innovative integrated systems will apply a wrapped label to the front edge of the top or the bottom of our PET clamshell containers. Either way, it's tamper evident and secure.

High Speed Closers

Container closing equipment is available for all Inline clamshell containers; closing at rates up to 200 units per minute or more. Change over from one size container to the next takes only minutes.

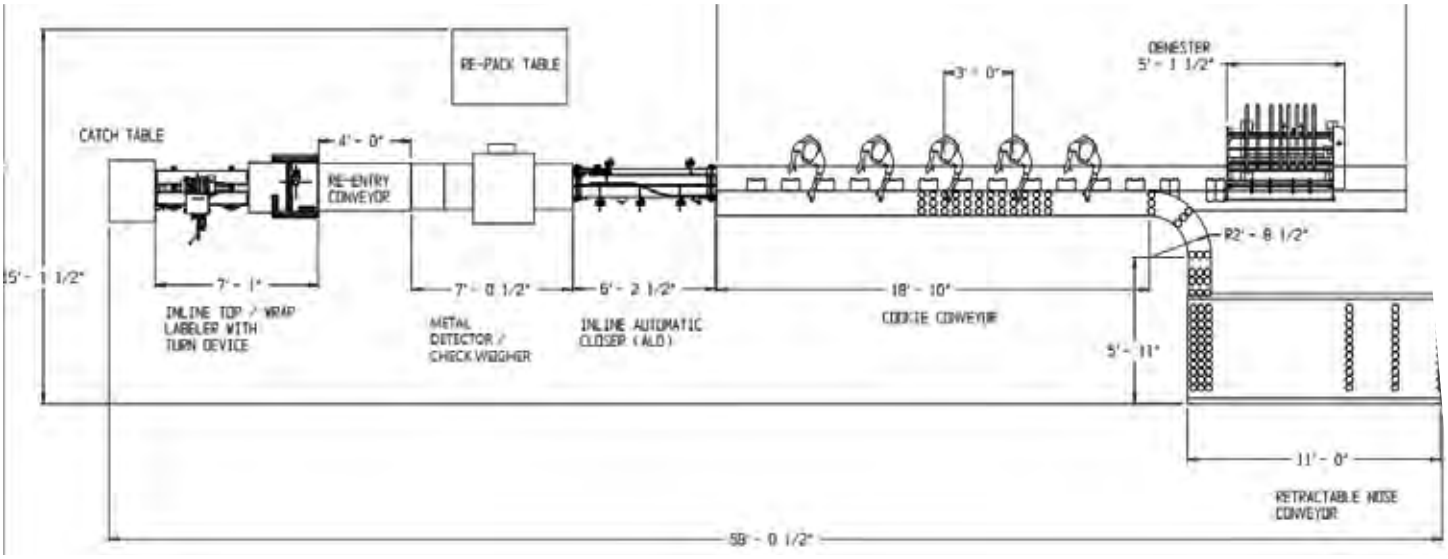
De-Nesters

Inline equipment is designed to pick and place empty containers onto a packing conveyor quickly, accurately, and efficiently.

Conveyers

We can automate vibrating the containers to settle food; we can flip the container around onto its lid, or turn containers to the desired position for labeling or ink-jetting.

We design around existing equipment or develop an entire line.



To schedule an automation team visit, please contact us at **800-826-5567** or visit **inlineplastics.com.**

Safe-T-Fresh®

The industry's first tamper evident container with a unique, patented pull tear strip. Simple to use, ensures food safety and prevents leaks. Unmatched with over 100 packaging solutions available.

Tamper Evident Tear Strip
Consumer-friendly and intuitive; patented technology

Leak Resistant Seal
Seals in freshness and prevents spills

Peace of Mind
Confidence that food will stay safe, fresh and engaging on the shelf

One Step to Protecting Contents
Instantly tamper resistant by simply closing the lid

Maximize Shelf Utilization
Rigid stacking rails enhance multi-level merchandising

No Need for Shrinkbands or Wrap-Around Labels
Easy for packers to close and consumers to open

100% Recyclable

Made in the USA

Market Leader in Tamper Evident, Tamper Resistant Food Packaging Design

Safe-T-Fresh®

Vented Solutions

Know your product is secure with tamper evident Safe-T-Fresh® containers. Benefits include unique venting solutions for foods that require additional airflow to allow for outgassing.

Specialized venting systems have been strategically designed to allow excess moisture or gases to be released, keeping contents fresher...longer.

Types of Vented Solutions

Narrow Vents

Side and bottom vents allow moisture and gases to escape and maintain freshness of herbs, fresh vegetables, and uncut fruit.

Channel Vents

Large vents in the seal area enable airflow through the container. Great for produce needing excess air.

Microvents

These unique microvents permit food gases to escape, maintaining product freshness.

Note: Item numbers ending in V or VT stand for vented.

Note: Product photos are not proportional to each other and specifications should be referenced for accurate sizing. All dimensions are L x W x H.

Essentials

Economical, efficient and dependable. Our Essentials portfolio includes a proven and comprehensive blend of packaging solutions for every market.

Peace of Mind
Confidence that food will stay safe, fresh and engaging on the shelf

Sturdy Design
Diversified brand of clamshells and two piece containers

Highest Clarity DPET™ Material
Low Carbon Footprint

Maximize Shelf Utilization
Conserve valuable shelf space with stackable packaging

Proven Security
Double line locks keep containers firmly closed

Clear View
Easy open feature with minimal ribbing for enhanced viewing

100% Recyclable

Automation Solutions Available

Diversified brand of clamshells and two piece containers

Essentials SureLock®

Essentials SureChoice®

Essentials VisiblyFresh®

Essentials CrystalFresh®

Essentials PartyPlatters

Essentials EZ Open®

Essentials ValuPack®

Essentials
SureLock®

The Standard in Dependability

The most complete line of clamshell packaging for every need

Easy to Open

Container and its contents will not be damaged while opening or closing

SureLock® Security

Double line locks provide maximum security and prevent lids from opening

Sanitary Lid Design

Sanitary lid design overlaps base to keep out crumbs and other contaminants

Stackability

Conserve valuable shelf space while creating eye-catching displays

SureLock® Rounds
shaped for all of your pie needs.

Essentials
ValuPack®

Trusted Standard in Utility Packaging

Representing the best combination of value and quality

Expansive Selection

With the options of single or multiple use compartments, we have the container for you

SureLock® Security

Double line locks provide maximum security

Sanitary Lid Design

Sanitary lid design overlaps base to keep out crumbs and other contaminants

Stackability

Conserve valuable shelf space while creating eye-catching displays

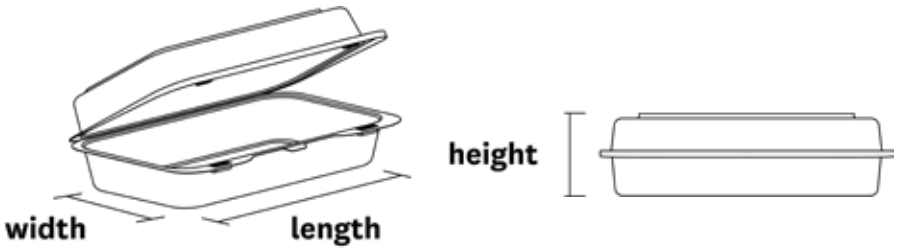
How to Measure our Containers

Standard volumes listed are base + lid volumes combined. The Inside Dimensions (ID) for containers with multiple compartments reflects each compartment's dimensions.
All IDs are measured at the hinge line.
The IDs for circular compartments (cupcakes, muffins, pies) list bottom diameter, top diameter, and height including lid. Outside Dimensions (OD) are consistent with the diagram, and are listed in order of Length (along hinge) x Width x Height.

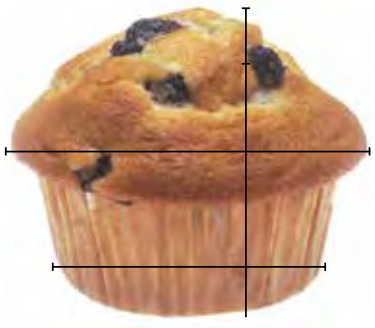


Muffin and Cupcake Dimensions

Example:
ID 5.4 x 6 x 13.5cm equals
(a) base diameter x (b) crown diameter x (c) height

Mini muffins are generally 2.5 - 5cm.
Standard size muffins are generally 11.4 - 14cm.
Large/Jumbo muffins are generally 15.2cm and above

Base Diameter (a) x Crown Diameter (b) x Height (c)



c. Height

b. Diameter at crown (widest part)

a. Diameter at base of muffin

Disclaimer: We strongly recommend that customers test products under their specific conditions to determine fitness for use. Please feel free to obtain free samples through our website, inlineplastics.com, or contact your Inline Plastics' representative.

Purchase Order Requirements

All international purchase orders must be for a minimum of a 20 foot or a 40 foot container.

Email purchase order to: customerservice@inlineplastics.com; or, Fax to Inline Plastics, Attention: Customer Service, +1-203-924-0370.

Purchase Orders must include the following information:

1. Entity's legal name with bill to and shipping address
2. Purchase order number
3. Name of customer contact and or representative, email address, phone and facsimile number
4. Number of cases ordered by Inline Plastics' item number (SKU);
5. Price per case

substitute US Terms & Conditions

same for Canada

Sales Policy

1. International shipments (excluding Canada) are EXW (Ex Works) from Inline Plastics Company Distribution Centers.

2. Inline Plastics will ship freight prepaid to a continental US destination (e.g. Port or Terminal) for orders meeting minimum requirements for continental U.S. prepaid shipments.

3. For all EXW shipments, Inline Plastics reserves the right to refuse to load any container, trailer or carrier that does not meet Inline Plastics acceptance criteria for cleanliness, holes, leaks or any other objectionable condition. Inline Plastics will not accept any penalties resulting from such refusal.

4. Shipments are made on standard 40"x48" (non-heat treated) pallets. Extra fees will be incurred for non-standard pallets or any special labeling or handling that may be required.

5. Inline Plastics will floor load a container or intermodal trailer if requested for a fee of $250.

6. Appointments must be scheduled with Inline Plastics Distribution Centers.
